

ISE APPOINTS NEW AUV AGENTS

PORT COQUITLAM, BC - ISE has recently appointed two new agents to promote their Explorer class of Autonomous Underwater Vehicles in Russia and Asia.

AGT Systems, Russia

AGT Systems of Moscow has been selected to represent the ISE Explorer in Russia. AGT Systems specializes in the sale and transfer of advanced technologies used in the mining and petroleum industry to Russia and the Commonwealth of Independent States (CIS).

The company is staffed by seasoned marketing, engineering and technical personnel with broad international experience and an extensive network of senior level contacts and personal ties with all the major business groups active in this huge market. AGT works closely with many Canadian and US manufacturers in these various industries and has been a major supplier of their technologies to the various mining and oil/gas companies and government agencies throughout this region including the Alrose and Norilsk Group of Companies.

ISE welcomes AGT Systems as an integral part of their agent's group and the promotion of the ISE Explorer AUV.

For more information about AGT Systems, please contact Mr. Victor Ovcharuk, Director, AGT Systems, 24 Smolnaia Street, Suite 1420, 125445 Moscow, Russia, telephone +7.495.232.0786, email ovcharuk@agtsys.ru, www.agtsys.ru.

Oceanvision Pte Ltd., Singapore

ISE has chosen Oceanvision of Singapore as their agent in Asia to promote the Explorer AUV. Oceanvision will cover Brunei, Indonesia, Malaysia, the Philippines, Thailand, Singapore and Vietnam. Oceanvision manufactures and supplies specialised equipment to various sectors of the offshore, marine and petrochemical industries for use in hazardous areas and harsh environments.

The Explorer class AUV compliments Oceanvision's products and technologies. In addition to supplying and installing specialised CCTV equipment for marine vessels, petrochemical plants and integrated systems for offshore platforms and drilling rigs, Oceanvision is also an ROV supply company dealing in the sale of electric and hydraulic ROVs and ancillary equipment such as sonar, manipulators and tooling.

To reach Oceanvision, contact Mr. Ian Johnson, Director, Oceanvision Pte Ltd., 15 Changi North Street 1, #01-33/34, Singapore 498765, Republic of Singapore, telephone +65.6542.1800, email ian@oceanvision.com.sg, www.oceanvision.com.sg.

ISE was formed in 1974 to design and build underwater vehicles for the subsea industry. During the last 35 years ISE has built remotely operated vehicles (ROVs), manned submersibles, semi-submersibles, robotic manipulators and AUVs. ISE also designs and builds unique solutions for subsea and robotic tasks, and has a customer base spanning the globe.
